

Krishna Rajendra Market (K.R. Market): Problems and Solutions

Study Team: N. Ramesh Babu, Harish M., Monika Yadav and
Nishant Dwivedi

ACKNOWLEDGEMENT

First and foremost we would like to thank Mr. Nishant Dwivedi and Ms. Monika Yadav, post graduate students who worked as interns in CiSTUP and during their internship they worked on this project and they have done a wonderful job. We would also like to thank people who are directly and indirectly contributed to this project.

N. Ramesh Babu

Transport Planner-Grade I

PREFACE

The study “Krishna Rajendra Market (K.R. Market) – Problems and Solutions” was done under the direction of CiSTUP- the Centre for infrastructure, Sustainable Transportation and Urban Planning, Indian Institute of Science, Bangalore. The Centre was established in the year 2009 during the centenary celebrations of the Indian Institute of Science, with inputs from many visionaries, organizations and has plans to be one of the finest centres of advanced research and training in the field of infrastructure and transportation engineering in India and Abroad. The mandate and vision of CiSTUP is to produce knowledge that addresses the unique urban issues specifically on sustainable urban transportation along with other related topics of infrastructure and urban planning. Further the centre is to conduct training programmes, capacity building and also develop expertise and provide complete technological and planning solutions for urban renewal and development programmes related to urban transportation and infrastructure engineering.

This study on ‘K.R. Market – Problems and Solutions’ looks at various problems the market is facing like lack of proper waste management system, lack of parking space for vehicles of customers who come to the market to buy goods, lack of space for the people to walk through because of occupation of most of the space by illegal vendors etc., and come out with some suggestions to the above problem so that more customers will come to the market to buy goods.

Prof. J.M. Chandra Kishen,
Chairman, CiSTUP

CONTENTS

CHAPTER 1: INTRODUCTION	1
1.1 Introduction	1
1.2 Objective of the Study	2
1.3 Methodology of the Study	3
CHAPTER 2: HISTORY AND CURRENT SCENARIO	4
2.1 Introduction	4
2.2 Project Location	9
2.3 Current Scenario and Developments	11
2.4 Problems and Issues	17
CHAPTER 3: DETAILED ANALYSIS OF CURRENT PROBLEMS	18
3.1 Introduction	18
3.2 Existing Master Plan	18
3.3 Current Vendor Location	20
3.4 Current Pedestrian and Vehicular Movement	21
3.5 Existing Bus Stand	24
3.6 Current Parking Space	24
3.7 Current Solid Waste Management Practice	25

CHAPTER 4: PROPOSALS TO IMPROVE THE CURRENT SITUATION	29
4.1 Introduction	29
4.2 Proposed Master Plan	29
4.3 Proposed Vendor Location in the Market Area	33
4.4 Proposed Pedestrian and Vehicular Movement	34
4.5 Proposed Bus Stand	35
4.6 Proposed Parking Space	35
4.7 Solid Waste Intervention	35
CHAPTER 5: CONCLUSIONS AND RECOMMENDATIONS	40
5.1 Conclusions	40
5.2 Recommendations	40
BIBLIOGRAPHY	42

LIST OF FIGURES

Figure Number	Title of the Figure	Page Number
1.1	Methodology of the Study	3
2.1	Old and New Bangalore Map Showing K.R. Market and Surrounding Area	5
2.2	The Buffer Zone: A photograph of the K.R. Market bus stand area taken in the 1870s by an unknown photographer	6
2.3	K.R. Market photo taken decades ago by The Hindu’s phogographer	6
2.4	K.R. Market Location	10
3.1	Existing Master Plan	19
3.2	Current Vendor Location	20
3.3	Current Pedestrian and Vehicular Movement	22
3.4	Current Congestion Points	23
3.5	Existing Bus Stand	26
3.6	Current Parking Space	27
3.7	Current Solid Waste Dumping Spots	28
4.1	Proposed Master Plan	30
4.2	Proposed Vendor Location	31
4.3	Proposed Vendor and Sidewalk Treatments	32
4.4	View of the Ground Floor Retail Shops	33
4.5	Proposed Pedestrian and Vehicular Movement	34
4.6	Proposed Bus Stand	36
4.7	Conceptual View and Section of Bus Stand	37
4.8	Proposed Parking Space for Vehicles	38
4.9	Solid Waste Intervention	39
