

The Plan

What?

All waste generated within academic departments should be segregated at source.

How?

A set of color coded small bins, referred to as floor bins, to be provided at strategic locations throughout the department.

The faculty, staff, and students of every department should use **only** these bins to dispose of their trash.

The department housekeeping staff will be maintain these floor bins.

Set(s) of large color-coded bins will be placed at one or two places in the department. The housekeeping staff will empty floor bins into same-color department bins.

These department bins will be emptied by SWaMII staff daily

Non-segregated waste will **not** be collected

Waste Categories and color coding of bins

Green bin
Organic

Red bin
Sanitary

Yellow bin
~Plastics

Blue bin
Papers

Grey bin
Glass

Grey bin
E-wastes
